In the article by Jander et al, “Outcome of Patients With Low-Gradient “Severe” Aortic Stenosis and Preserved Ejection Fraction,” which was published ahead of print on February 14, 2011, errors were present in Table 2:

The unit for aortic valve area should read “cm^2” instead of “cm.”

The unit for all indexes within the table should read “…/m^2” instead of “…/m.”

The table has been corrected in the print and online version of the article. The authors regret the error.
