Correction to: Cysteine-Altering NOTCH3 Variants Are a Risk Factor for Stroke in the Elderly Population

In the article by Hack et al, "Cysteine-Altering NOTCH3 Variants Are a Risk Factor for Stroke in the Elderly Population," which published online on November 9, 2020, and appeared in the December 2020 issue of the journal (*Stroke*. 2020;51:3562–3569. doi: 10.1161/STROKEAHA.120.030343), a correction is needed.

On page 3563, in the Nonstandard Abbreviations and Acronyms box, "*NOTCH3* cys variants" should read "*NOTCH3*^{3^{rs}} variant." In addition, "cysteine altering missense *NOTCH3* variants" should read "cysteine altering missense *NOTCH3* variant."

This correction has been made to the current online version of the article, which is available at <https://www.ahajournals.org/doi/10.1161/STROKEAHA.120.030343>.
